BILLING CODE 3410-34-P

NUCLEAR REGULATORY COMMISSION

10 CFR Parts 50, 52 and 100

RIN 3150-AD93

Reactor Site Criteria Including Seismic and Earthquake Engineering Criteria for Nuclear Power Plants and Proposed Denial of Petition From Free Environment, Inc., et al.

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule; extension of comment period.

SUMMARY: On October 17, 1994, the NRC published (59 FR 52255) for public comment a proposed revision of 10 CFR parts 50, 52, and 100 to update the criteria used in decisions regarding power reactor siting, including geologic, seismic, and earthquake engineering considerations for future nuclear power

plants. The comment period was to expire on February 14, 1995.

On February 8, 1995, the Commission stated (60 FR 7467) that it intended to extend the comment period to allow interested persons adequate time to provide comments on staff guidance documents consisting of five draft regulatory guides and three standard review plan sections that were to accompany the proposed rule, but were delayed in issuance. The Commission stated that it would extend the comment period 75 days after the staff guidance documents became available.

Availability of the above staff guidance documents is being announced in the Notices section of this issue of the **Federal Register**. The comment period for the proposed rule is hereby extended to May 12, 1995.

DATES: Comment period now expires May 12, 1995. Comments received after this date will be considered if it is practical to do so, but the Commission is able to assure consideration only for comments received on or before this date.

ADDRESSES: Mail written comments to: Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Service Branch.

Hand deliver comments to 11555 Rockville Pike, Rockville, Maryland, between 7:45 am and 4:15 pm, Federal workdays.

Comments may be submitted electronically, in either ASCII text or Wordperfect format (version 5.1 or later), by calling the NRC Electronic Bulletin Board (BBS) on FEDWORLD. The bulletin board may be accessed with a personal computer, a modem, and one of the commonly available communications software packages, or directly via Internet. Certain background documents on the rulemaking are also available for downloading and viewing.

With a personal computer and modem, the NRC rulemaking subsystem can be accessed on FEDWORLD, toll free, by directly dialing 1-800-303-9672. Communication software parameters should be set as follows: parity to none, data bits to 8, and stop bits to 1 (N,8,1). Using ANSI or VT-100 terminal emulation, the NRC rulemaking subsystem can be accessed by selecting the "Rules Menu" option from the "NRC Main Menu." For further information about options available for

NRC at FEDWORLD, consult the "Help/Information Center" from the "NRC Main Menu." Users may also find the "FEDWORLD Online User's Guides" helpful.

The NRC subsystem on FEDWORLD also may be accessed directly by dialing 703-321-8020 for the main FEDWORLD BBS, or by using Telnet via Internet: fedworld.gov. If 703-321-8020 is dialed, the NRC subsystem can be accessed from the main FEDWORLD menu first by selecting "Regulatory, Government Administration and State Systems," then selecting "Regulatory Information Mall." A menu will display an option "U.S. Nuclear Regulatory Commission" that will lead to the NRC Online main menu. The NRC Online area also may be accessed directly by typing "/go nrc" at a FEDWORLD command line. If NRC is accessed from FEDWORLD's main menu, one may return to FEDWORLD by selecting the "Return to FEDWORLD" option from the NRC Online Main Menu. If NRC at FEDWORLD is accessed via NRC's toll-free number, full access will be available to all NRC systems, but there will be no access to the main FEDWORLD system.

If FEDWORLD is contacted using Telnet, the NRC area and menus will be available, including the Rules Menu. While documents may be downloaded and messages left, it is not possible to write comments or upload files (comments). If FEDWORLD is contacted using FTP, all files can be accessed and downloaded but uploads are not possible; a list of files without their descriptions (normal Gopher look) will be seen. An index file listing all files within a subdirectory, with descriptions, is available. There is a 15 minute time limit for FTP access.

Although FEDWORLD also may be accessed through the World Wide Web, this only provides access to download files and does not display the NRC Rules Menu.

For more information on NRC bulletin boards call Mr. Arthur Davis, Systems Integration and Development Branch, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone (301) 415-5780; e-mail AXD3@nrc.gov.

Single copies of the proposed rule may be obtained by written request or telefax (301-504-2260) from: Distribution Services, Printing and Mail Services Branch, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Documents related to this rulemaking, including comments received, may be examined at the NRC Public Document Room, 2120 L Street NW. (Lower Level), Washington, DC. These same documents

may also be viewed and downloaded electronically via the Electronic Bulletin Board established by NRC for this rulemaking as indicated above.

Airworthiness Directives; Textron Lycoming ALF502L Series Turbofan Engines

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes the adoption of a new airworthiness directive (AD) that is applicable to Textron Lycoming ALF502L series turbofan engines.
